Overview

Introduce the project. Provide a quick background and rationale. Briefly share its overall scope as well as expected outcomes.

01

1. Establishing a Wood Factory specialized in producing high-quality ready-made rooms (bedrooms, living rooms, offices).

02

Implementing Odoo ERP to manage and integrate all operations — from purchasing raw materials to production, sales, and accounting.

03

Enhancing Efficiency and Profitability by controlling costs, improving production flow, and ensuring real-time visibility.

04

Building a Scalable Business Model capable of growing in local and international markets.

Objectives

The objective of this project is to establish and operate a wood factory specialized in producing ready-made rooms such as bedrooms, living rooms, and office rooms.

The project aims to implement the Odoo ERP system to manage and automate the entire process from purchasing raw materials to production, sales, and accounting.

This approach ensures accurate cost control, efficient inventory management, and sustainable profitability.

A photograph of a modern office interior. The room features light-colored wooden floors and walls. In the foreground, there are several long wooden desks arranged in a U-shape, each with a black office chair. A large, vibrant green wall covered in various plants and vines runs along the back of the room. To the right, there's a seating area with a long sofa and some armchairs. The ceiling is made of wood and has some exposed beams. The overall atmosphere is bright and natural.

MAIN PROJECT PHASES

PHASE 1: PROCUREMENT (RAW MATERIAL PURCHASING)

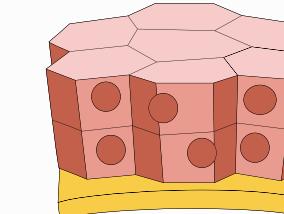

Raw Material Purchasing

- Select reliable and approved suppliers.
- Create and approve purchase orders for raw materials (wood, fittings, paint, accessories).
- Receive materials and register them in the Odoo Inventory system.
- Ensure stock availability and quality control upon receipt.
- Prepare materials for the production line.

أولاً: الأخشاب الأساسية (Wood Materials)

1. خشب MDF
2. خشب الكونتر (اللوح المضغوط)
3. الخشب الطبيعي (سويد - زان - موسكي - بلوط)
4. (Plywood) الخشب الرقائقي

ثانياً: المواد الإضافية (Additional Materials)

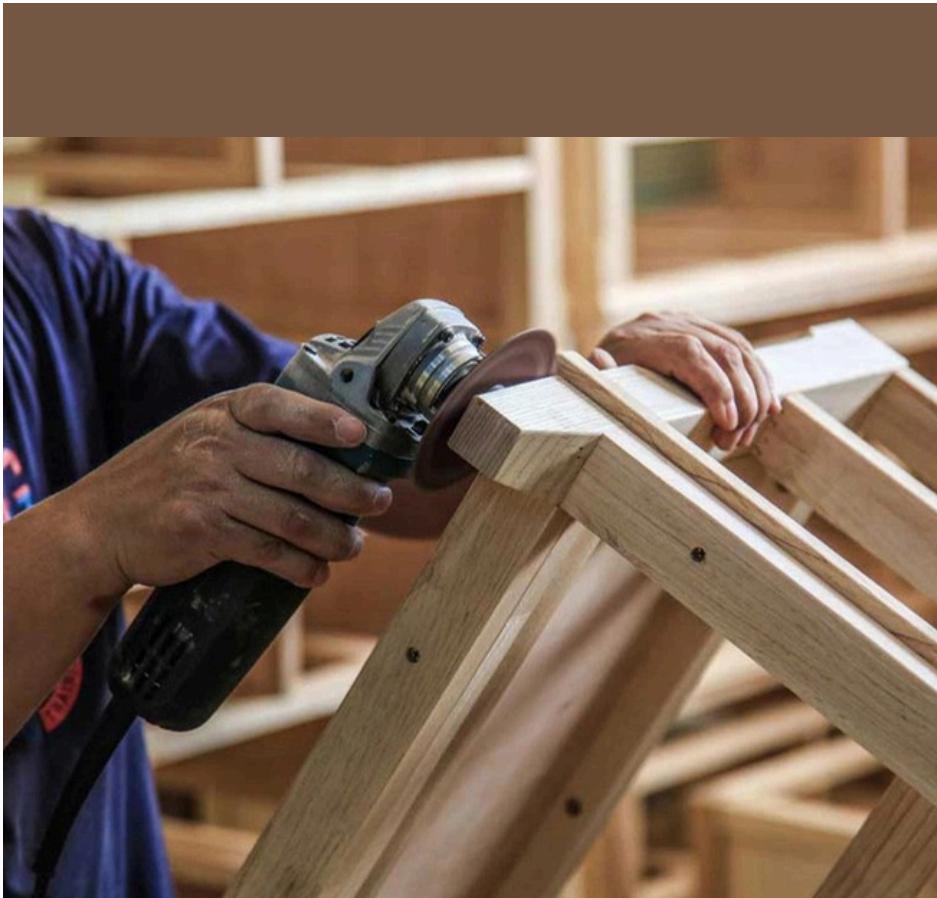

1. دهانات وورنيشات
2. ألوان وطلاء (Lacquer – Paint)
3. قشرة خشب (Natural Veneer / Laminate)
4. فوم وإسفنج وأقمشة
5. مفصلات - مقابض - مفاتيح - سحابات

ثالثاً: مستلزمات التركيب والتجميع (Assembly & Fittings)

- مسامير وبراغي.
- غراء خشب قوي.
- زوايا تثبيت معدنية.
- مفصلات هيدروليكي أو عاديّة.
- سحابات أدراج.
- الزجاج والمرايا (& اختياري) (Mirrors)

PHASE 2: PRODUCTION (MANUFACTURING PROCESS)

Manufacturing Process

- Convert raw materials into finished products.
- Design and produce different models of rooms according to demand and customer specifications.
- Monitor the full production process including cutting, assembly, sanding, painting, and finishing.
- Track production orders and raw material consumption in real time through Odoo.
- Ensure quality control throughout all production stages.

PHASE 2: PRODUCTION (MANUFACTURING PROCESS)

Manufacturing Process

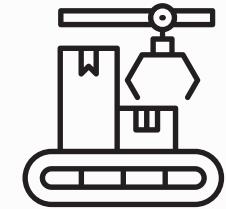

مرحلة التصميم والتخطيط 1 (Design & Planning)

1. تحديد موديل الغرفة المطلوب (نوم - سفرة - معيشة).
2. إعداد الرسومات الفنية والمقاسات.
3. تحديد نوع الخشب والخامات المطلوبة.
4. إصدار أمر إنتاج من نظام Odoo.

مرحلة التقطيع 2. (Cutting)

1. تقطيع الألواح الخشبية حسب المقاسات المطلوبة.
2. استخدام مناشير كهربائية وماكينات CNC حسب التصميم.
3. تصنيف القطع حسب كل قطعة أثاث (سرير - دولاب - كومود).

مرحلة التجميع 3- (Assembly)

1. تركيب الأجزاء الخشبية باستخدام الغراء، المسامير، والمفصلات.
2. تركيب هياكل الأثاث بالكامل (الإطار الأساسي).
3. فحص القياسات والزاويا بدقة.

مرحلة الصنفرة 4- (Sanding)

1. صنفرة القطع لإزالة أي شوائب أو خشونة.
2. تجهيز السطح للدهان أو التغطية بالقشرة.
3. التأكد من نعومة السطح بالكامل.

PHASE 2: PRODUCTION (MANUFACTURING PROCESS)

Manufacturing Process

مرحلة مراقبة الجودة - 7 (Quality Control)

1. فحص كل قطعة من حيث المقاسات، اللون، المتانة، والتشطيب.
2. التأكد من مطابقة التصميم للمواصفات.
3. إصلاح أي عيوب قبل التغليف.

مرحلة الدهان أو القشرة - 5 (Painting / Veneering)

1. طلاء المنتج حسب التصميم.
(مطفى - لامع - ملون).
2. أو تغطيته بقشرة طبيعية /
صناعية لإعطاء مظهر الخشب
الفاخر.
3. وضع الورنيش أو الطبقة النهائية
للحماية.

مرحلة التشطيب النهائي - 6 (Finishing)

1. تركيب الإكسسوارات (مقابض -
مفصلات - مفاتيح - سحابات).
2. تركيب المرايا أو الزجاج إن وجد.
3. التجديد (في حالة وجود ظهر منجد).

مرحلة التغليف - 8 (Packaging)

1. تغليف المنتج النهائي بعناية لحمايته
أثناء النقل.
2. وضع ملصقات المنتج ورمز الباركود.
3. تسجيل المنتج النهائي في نظام
كمخزون جاهز للبيع Odoo.

A wide-angle photograph of a modern office space. The room features long wooden desks arranged in rows, each equipped with a computer monitor and keyboard. The office is filled with natural light from large windows on the left, which look out onto a lush, green landscape. The ceiling is made of exposed wooden beams, and there are hanging plants and a large, curved wall covered in greenery. The overall atmosphere is bright, airy, and eco-friendly.

ODOO SYSTEM ROLE IN PROJECT SUCCESS

Odoo System Role

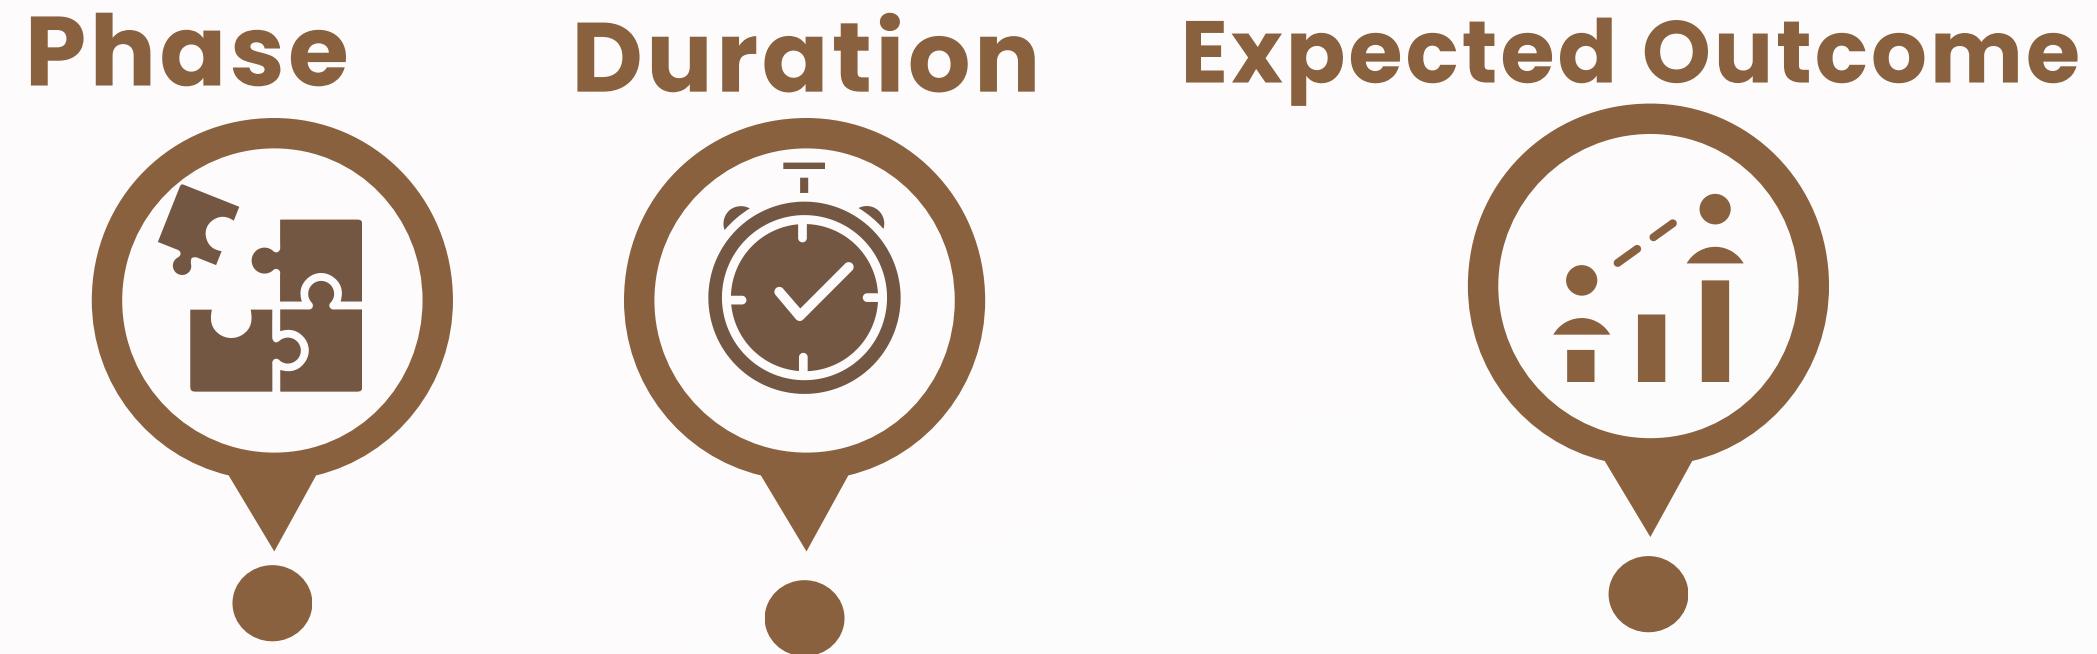

Operation	Odoo Module	Outcome
Raw Material Purchase	Purchase + Inventory	Track suppliers, orders, and stock levels
Manufacturing	Manufacturing + Quality	Control quality and reduce production costs
Storage	Inventory + Barcode	Organize warehouse and improve stock accuracy
Sales & Marketing	Sales + CRM + POS + Website	Increase sales and manage customer relationships
Financial Management	Accounting + Invoicing	Accurate reporting and financial transparency
Human Resources Management	Payroll + Attendance + Leaves	Manage workforce, track attendance, calculate payroll, and improve productivity

A modern office interior featuring long wooden desks and chairs. Large windows provide a view of a lush, green landscape outside. The ceiling is made of wood and has exposed beams. The overall atmosphere is bright and airy.

PROJECT IMPLEMENTATION PLAN

Future goals

Phase	Duration	Expected Outcome
Market Research	2 weeks	Identify customer needs and competitors
Factory Setup	1 month	Complete infrastructure and equipment
Raw Material Supply	2 weeks	Secure necessary materials
Production & Testing	1 month	First high-quality production batch
Launch Sales	Continuous	Start product sales
Expansion	After 6 months	Increase capacity and maximize profit

EXPECTED RETURN

1. Increase profit margins through local manufacturing.
2. Reduce costs and improve efficiency with a centralized ERP system.
3. Real-time insights into sales, stock levels, and finances.
4. Stronger market presence and export opportunities in the future.

Financial and Administrative Documentation

Every operation (purchase, production, sales, collection) is recorded automatically in Odoo.

Easy access to detailed reports and dashboards.

Full financial transparency and compliance with tax regulation

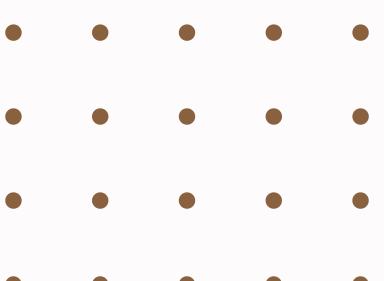

Final Project Outcome

95%

Sales

- High-quality products meeting market demand.
- Integrated ERP system to control costs and boost profits.
- Sales increased by 90%.
- Strong local presence with expansion potential.
